TRANSFERABLE SKILLS

Leadership and Teamwork: I have found myself leading and managing people in group projects inside both school and university, where a strong sense of direction and common goal was needed. Noteworthy instances include leading groups for major projects in software and web development classes.
Motivation and Willingness to Learn: I am highly motivated to learn new skills and have taken to self teaching myself skills such as app development, web development, and graphic design in the Adobe Creative Suite.
Communication Skills: I have been involved with various group projects where communication was crucial, and have received a High Distinction in my 'Communication for IT Professionals' Class.
